DESCRIPTORS: *Telephone equipment, *Polarized
relays, Telephone communication systems, Coupling
circuits.

The concentrator described in this article assures the
link between 200 subscribers' lines and the exchange
through a group of 24 concentration lines. It is of the
"semi-electronic" type, i.e., it possesses a speech
network assuring metallic link between subscriber's
station and exchange and set in place by an electronic
control circuit. The connection chosen for the speech
